Joaquin Cardenas

Arequipa, Perú (UTC-5) | joaquin.data.dev@gmail.com | linkedin.com/in/joaquincardenas-data | github.com/DaelFame

Accounting student (expected 2027) with KPMG audit experience and FP&A/BI work turning budget data into decisions. Ranked 1st globally in KPMG's Audit Foundations 1 (international cohort).

Education

Universidad Católica San Pablo (UCSP) — Arequipa, Perú
Bachelor's degree in Accounting — *Expected 2027*

TECSUP — Arequipa, Perú
Power BI Professional — *2022*

Experience

Audit Data Analyst Intern — Jan. 2026 – Mar. 2026
KPMG en Perú — *Lima, Perú*
- Ranked 1st globally in KPMG's Audit Foundations 1 training program (international cohort)
- Reconciled accounts and validated data for IFRS audit engagements using SQL and advanced Excel

Operations Analyst — Aug. 2024 – Aug. 2025
La Katita (Government & Corporate Contracting) — *Arequipa, Perú*
- Managed logistics, budgeting and administration for large-scale institutional food service
- Tracked budget vs. actual spend and built routing metrics that cut delivery times by 15%

Operations & BI Analyst — Jun. 2023 – Jul. 2024
Triburritos (Fast Casual Food Industry) — *Arequipa, Perú*
- Built automated Power BI dashboards for cash flow, labor and KPIs, raising reporting efficiency 30%
- Analyzed transactional sales data to identify revenue leaks and cost-optimization opportunities

Accounting Systems & Data Associate — Jan. 2023 – Jun. 2023
Talleres Escarcina Torres (Automotive Service) — *Arequipa, Perú*
- Deployed an automated Power BI ecosystem on PostgreSQL for real-time AP/AR monitoring
- Managed month-end closing and prepared preliminary financial statements

General Manager & Revenue Analyst — May 2020 – Jun. 2022
Toro Loco Bar & Grill (Hospitality) — *Arequipa, Perú*
- Analyzed sales trends and implemented electronic invoicing, driving a 55% revenue increase
- Managed full P&L and built Power BI dashboards for cash flow, labor costs and revenue KPIs

Operations Associate — Dec. 2016 – Mar. 2017 & Dec. 2019 – Mar. 2020
J-1 Program (Hospitality Operations, USA) — *Hawaii & Ohio*
- Two seasonal contracts at high-volume US resorts; worked fully in English in a US corporate environment

Projects

FP&A Forecasting & Variance Analysis | *Python, Power BI, pytest* — 2026
- Rebuilt four years of statements into a driver-based model, tracing a 61% net-income miss to operating expenses and isolating EUR 150,000 of unsupported expenses
- Forecast next-year revenue within 0.3% out-of-sample on a two-fold rolling-origin backtest

Peru Budget Lakehouse | *Python, SQL, DuckDB, Streamlit* — 2026
- Built an end-to-end public budget platform processing 29.5M fact rows (8M source records) with 131 automated tests and a reconciliation gate
- Orchestrated with Prefect/Docker; added an interactive Streamlit dashboard with an NL-to-SQL interface

UCSP Market Intelligence | *Power BI, DAX, Python, Kimball* — 2026
- Built a two-page decision deck on 17.4M public enrollment records, exposing a 1.6pp market-share leak masked by 19% volume growth

Certifications

Data Analytics for Finance — Universidad Católica San Pablo (2026)

Python Essentials 2: Intermediate — Cisco (2026)

SQL Interactivo — Desafío Latam (2024)
